

## ***THE BEERS***

From opening on Wednesday evening around 900 beers should be available to choose from, if they are ready. Then around 300 further beers will go on sale later in the festival once there is room on the stillages. This is to ensure that there is still a good selection of beers available throughout the festival.

The beers on sale from the start are numbered to help you spot them on the bar. The reserve beers are marked “RES”, apologies if these appear in a slightly random order, as they have to be fitted onto the stillage as space permits.

Beers marked **V** are not fined with isinglass and are therefore suitable for vegans and vegetarians.

Gluten Free beers are marked “**Gluten Free**”

Breweries marked **LocAle** are situated within 20 miles of the festival.

### **MAIN MARQUEE**
