

THE BEERS

From opening on Wednesday evening around 550 beers should be available to choose from, if they are ready. Then around 140 further beers will go on sale later in the festival once there is room on the stillages. This is to ensure that there is still a good selection of beers available throughout the festival.

The beers on sale from the start are numbered to help you spot them on the bar. The reserve beers are marked "RES", apologies if these appear in a slightly random order, as they have to be fitted onto the stillage as space permits.

Beers marked "vegan" are not fined with isinglass and are therefore suitable for vegans and vegetarians. Gluten Free beers are marked "Gluten Free". Breweries marked "LocAle" are situated within 20 miles of the festival.

Once again, this year we are offering a selection of beers served from a KeyKeg or similar container. These are beers sold from a plastic container inside which is a bag where the beer is stored. The beer is served by applying air pressure to the outside of the bag, which squeezes it and forces the beer to the tap. KeyKeg type beers are clearly marked "KeyKeg" in this programme. There is a dedicated KeyKeg Bar under the Bridgford Road stand and some brewery bars will also offer some KeyKeg beers.

Unfortunately, KeyKegs are non-returnable and many end up in general non-recycled waste. However, we are endeavouring to ensure that all KeyKegs used at this festival will be recycled.

Please note draught products are supplied for consumption on the premises only, this is due to a recent change to Alcohol Duty regulations. CAMRA are actively campaigning to get this changed.

MAIN MARQUEE BAR "A"

3 BREWERS *Hatfield Hertfordshire*

1 GOLDEN ENGLISH ALE 3.8%
